ABOUT ME

Full Stack Developer with hands-on experience building scalable web applications using Next.js, React.js, TypeScript, Node.js, and Supabase. Experienced in developing and maintaining production-ready systems including order management dashboards, international shipping workflows, payment gateway integrations, authentication systems, and customer-facing web applications. Skilled in designing responsive user interfaces, building REST APIs, integrating third-party services, and managing databases. Proficient with Git, GitLab CI/CD, PostgreSQL, MongoDB, Razorpay, and Supabase. Strong problem-solving abilities with a focus on delivering reliable, user-centric solutions in fast-paced startup environments.

EDUCATION

Master of Computer Applications (MCA)

MESAbasahebGarwareCollege,Pune | 2023-2025

CGPA: 9.18

WORK EXPERIENCE

Associate Software Developer - Dextop

Dec 2026 present

www.chotubot.com

- Developed full-stack applications using Next.js, React.js, TypeScript, and Supabase.
- Built and maintained an Order & Shipping Management Dashboard for order processing and shipment tracking.
- Implemented international shipping, currency conversion, and order tracking features.
- Integrated Razorpay payments, including payment verification and webhook handling.
- Developed secure authentication and authorization using Supabase.
- Built backend APIs for orders, payments, and customer management.
- Implemented promotional and transactional email systems.
- Created responsive UI from Figma designs and managed GitLab CI/CD workflows.

FullStackDeveloperIntern | SASH Info Pvt. Ltd

July 2025 - Oct 2025

sashinfo.com | eductrl.com | clientctrl.app

- I worked on product DocuEsign including secure document upload, drag-drop signatures, OTP/email verification, and credit system.
 - Developed and integrated REST APIs using Next.js, and tested all APIs in Postman.
 - Implemented IP/device tracking, real-time status updates, and user role management.
 - Improved UI/UX using Next.js, React, Bootstrap, Redux, and reusable components. Managed code versions, branches, and feature updates using Git & GitHub.
-

SKILLS
